DETAILR

DETAILR · EXT

Exterior

Body Panels

Left front fender paint uniformity	PASS
Check for dents on body panels	PASS
Check for scratches on body panels	PASS
Check for paint color mismatch between panels	PASS
Check for uneven panel gaps	PASS
Check for signs of repainting or touch-up	PASS
Check for rust or corrosion on panels	PASS
Check for waviness or surface distortion	PASS
Check alignment of doors with body panels	PASS
Check alignment of bonnet with fenders	PASS
Check alignment of boot lid with rear panels	PASS
Check for adhesive residue or protective film marks	PASS

Doors / Bonnet / Boot

Check door opening and closing operation	PASS
Check bonnet opening and closing operation	PASS
Check boot opening and closing operation	PASS
Check door alignment with body panels	PASS
Check bonnet alignment with fenders	PASS
Check boot lid alignment with rear panels	PASS
Check door hinges for noise or stiffness	PASS

DETAILR

Check door locking and unlocking operation	PASS
Check bonnet stay or gas strut operation	PASS
Check boot gas strut or support rod operation	PASS
Check weather seals on doors, bonnet, and boot	PASS

Glass & Mirrors

Check windshield for cracks or chips	PASS
Check windshield for scratches or distortions	PASS
Check front side windows for cracks or chips	PASS
Check rear side windows for cracks or chips	PASS
Check rear windshield for cracks or defogger line damage	PASS
Check operation of power windows	PASS
Check exterior mirrors for cracks or damage	PASS
Check mirror adjustment controls	PASS
Check mirror folding mechanism	PASS
Check glass seals and beading condition	PASS
Check for tint film bubbles or peeling	PASS

Lights & Indicators

Check headlamp lenses for cracks or damage	PASS
Check headlamp illumination (low beam)	PASS
Check headlamp illumination (high beam)	PASS
Check headlamp alignment	PASS
Check daytime running lights operation	PASS

DETAILR

Check front turn indicators operation	PASS
Check rear turn indicators operation	PASS
Check tail lamps for cracks or moisture	PASS
Check brake light operation	PASS
Check reverse light operation	PASS
Check hazard lights operation	PASS

Paint & Finish

Check for paint scratches	PASS
Check for paint swirl marks	PASS
Check for paint chips on panels	PASS
Check for uneven paint finish or orange peel effect	PASS
Check for paint color consistency across panels	PASS
Check for clear coat peeling or defects	PASS
Check for overspray on trims or glass	PASS
Check for polish residue in panel gaps	PASS
Check for stains or water spots on paint surface	PASS
Check paint finish under direct light for imperfections	PASS
Check for protective coating or wax application consistency	PASS

Rust & Corrosion

Check for rust on visible body panels	PASS
Check for corrosion on door edges and seams	PASS
Check for rust on bonnet edges	PASS

DETAILR

Check for rust on boot lid edges	PASS
Check for corrosion around windshield edges	PASS
Check for corrosion around rear glass edges	PASS
Check for rust on wheel arches	PASS
Check for corrosion on under-door sill areas	PASS
Check for rust on fuel filler area	PASS
Check for signs of rust repair or cover-up	PASS
Check for corrosion on exposed metal fasteners	PASS

DETAILR · INT

Interior

Air Conditioning & HVAC

Check air conditioner cooling performance	PASS
Check heater operation and warm air output	PASS
Check blower fan operation at all speed levels	PASS
Check air flow direction control operation	PASS
Check temperature control response	PASS
Check AC compressor noise during operation	PASS
Check automatic climate control function (if equipped)	PASS
Check rear AC vents air flow (if equipped)	PASS
Check cabin air filter condition	PASS
Check for unusual odor from HVAC system	PASS
Check defogger air flow from front vents	PASS

DETAILR

Cabin Cleanliness & Odour

Check cabin for overall cleanliness	PASS
Check seats and upholstery for dust or stains	PASS
Check floor mats and carpeting cleanliness	PASS
Check dashboard and trims for dust or smudges	PASS
Check for unpleasant odour inside cabin	PASS

Dashboard & Trims

Check dashboard surface for scratches or cracks	PASS
Check dashboard fitment and panel gaps	PASS
Check dashboard color and finish consistency	PASS
Check center console for damage or looseness	PASS
Check interior trim panels for scratches or marks	PASS
Check glove box opening, closing, and latch operation	PASS
Check air vent condition and adjustment operation	PASS
Check trim rattling or abnormal noise while stationary	PASS
Check dashboard warning lights illumination at ignition	PASS
Check steering column trim fitment	PASS
Check interior trims for signs of prior removal	PASS

Interior Lighting

Check cabin dome light operation	PASS
Check front map reading lights operation	PASS
Check rear cabin light operation	PASS

DETAILR

Check dashboard backlight illumination	PASS
Check instrument cluster illumination consistency	PASS
Check steering wheel control backlight illumination	PASS
Check center console illumination	PASS
Check footwell lighting operation (if equipped)	PASS
Check glove box light operation	PASS
Check boot interior light operation	PASS
Check interior lighting auto-off function	PASS

Seat Belts & Safety

Check driver seat belt condition for cuts or fraying	PASS
Check front passenger seat belt condition for cuts or fraying	PASS
Check rear seat belts condition for cuts or fraying	PASS
Check driver seat belt retraction operation	PASS
Check front passenger seat belt retraction operation	PASS
Check rear seat belt retraction operation	PASS
Check seat belt buckle locking and release function	PASS
Check seat belt height adjuster operation (if equipped)	PASS
Check seat belt warning indicator operation	PASS
Check child seat anchor points condition	PASS
Check airbag warning light status on ignition	PASS

Seats & Upholstery

Check driver seat upholstery for tears or damage	PASS

DETAILR

Check front passenger seat upholstery for tears or damage	PASS
Check rear seat upholstery for tears or damage	PASS
Check seat fabric or leather for stains or discoloration	PASS
Check seat cushioning firmness and shape	PASS
Check driver seat adjustment controls operation	PASS
Check front passenger seat adjustment controls operation	PASS
Check rear seat folding mechanism operation	PASS
Check seat rails for smooth movement and noise	PASS
Check headrests condition and adjustment	PASS
Check seat covers fitted correctly (if applicable)	PASS

Steering & Controls

Check steering wheel surface for wear or damage	PASS
Check steering wheel alignment (center position)	PASS
Check steering wheel tilt and telescopic adjustment operation	PASS
Check steering for abnormal free play	PASS
Check horn operation	PASS
Check steering-mounted audio controls operation	PASS
Check steering-mounted phone controls operation	PASS
Check indicator stalk operation and return action	PASS
Check wiper stalk operation	PASS
Check cruise control switches operation (if equipped)	PASS
Check steering column for abnormal noise during rotation	PASS

DETAILR

DETAILR · ELEC

Electronics

Battery & Electrical Health

Check battery manufacturing date	PASS
Check battery terminals for corrosion	PASS
Check battery terminal tightness	PASS
Check battery voltage at rest	PASS
Check battery voltage during engine start	PASS
Check alternator charging voltage	PASS
Check battery warning light status	PASS
Check visible wiring for damage or looseness	PASS
Check main fuse box cover and condition	PASS
Check spare fuse availability	PASS
Check electrical system for abnormal fluctuation	PASS

Electrical Controls & Switches

Check headlamp switch operation	PASS
Check indicator switch operation	PASS
Check hazard light switch operation	PASS
Check wiper and washer switch operation	PASS
Check rear defogger switch operation	PASS
Check power mirror adjustment switch	PASS
Check power mirror folding switch (if equipped)	PASS
Check engine start/stop button operation (if equipped)	PASS

DETAILR

Check interior illumination dimmer control	PASS
Check traction control or drive mode switch operation	PASS
Check all dashboard switches for proper tactile feedback	PASS

Infotainment System

Check infotainment system powers on	PASS
Check touchscreen responsiveness	PASS
Check display clarity and brightness	PASS
Check audio output from all speakers	PASS
Check volume control operation	PASS
Check radio FM/AM reception	PASS
Check Bluetooth pairing and audio streaming	PASS
Check USB media playback	PASS
Check Apple CarPlay / Android Auto operation (if equipped)	PASS
Check steering-mounted infotainment controls	PASS
Check system response time and lag	PASS

Instrument Cluster

Check instrument cluster powers on during ignition	PASS
Check speedometer operation	PASS
Check tachometer operation	PASS
Check fuel gauge accuracy	PASS
Check engine temperature gauge operation	PASS
Check odometer reading visibility	PASS

DETAILR

Check trip meter reset and operation	PASS
Check warning lights illuminate during self-test	PASS
Check warning lights turn off after engine start	PASS
Check instrument cluster backlight brightness control	PASS
Check digital display clarity and pixel condition	PASS

Power Windows & Locks

Check driver side power window operation	PASS
Check front passenger power window operation	PASS
Check rear left power window operation	PASS
Check rear right power window operation	PASS
Check one-touch up/down function (if equipped)	PASS
Check power window switches illumination	PASS
Check central locking operation from key fob	PASS
Check central locking operation from door switch	PASS
Check child lock function on rear doors	PASS
Check power door lock actuators noise	PASS
Check auto-lock function while driving (if equipped)	PASS

Warning Lights & Sensors

Check engine malfunction warning light status	PASS
Check ABS warning light status	PASS
Check airbag warning light status	PASS
Check brake system warning light status	PASS

DETAILR

Check battery charging warning light status	PASS
Check engine oil pressure warning light status	PASS
Check seat belt warning indicator operation	PASS
Check parking sensor warning indication	PASS
Check TPMS warning light status	PASS
Check door open warning indicator	PASS
Check all warning lights self-test during ignition	PASS

DETAILR · ENG

Engine Bay

Belts, Hoses & Mounts

Check drive belts for cracks or fraying	PASS
Check belt tension and alignment	PASS
Check coolant hoses for cracks or swelling	PASS
Check hoses for leaks at joints and clamps	PASS
Check engine mounts for visible damage or cracks	PASS
Check engine mounts for excessive movement	PASS

Cooling System

Check radiator for visible damage or leaks	PASS
Check coolant level in radiator	PASS
Check coolant reservoir condition and level	PASS
Check radiator hoses for cracks or swelling	PASS
Check cooling fan operation	PASS

DETAILR

Check radiator cap condition and fitment	PASS
Check for coolant stains or residue in engine bay	PASS

Engine Bay Wiring & Components

Check wiring harness for cuts or exposed wires	PASS
Check wiring connectors for secure fitment	PASS
Check fuse box wiring for damage or overheating marks	PASS
Check battery cables for wear or cracks	PASS
Check grounding points for tightness and corrosion	PASS
Check sensor wiring for damage or loose routing	PASS
Check relays and connectors seating	PASS
Check for signs of rodent damage on wiring	PASS

Engine Condition (Visual)

Check engine bay for oil leaks	PASS
Check engine bay for coolant leaks	PASS
Check engine block and head for visible damage	PASS
Check belts for cracks or wear	PASS
Check hoses for cracks, swelling, or leaks	PASS
Check wiring harness for damage or loose connections	PASS
Check engine mounting bolts for looseness	PASS
Check fluid caps secured properly	PASS
Check engine bay cleanliness	PASS
Check for abnormal rust or corrosion in engine bay	PASS

DETAILR

Check for aftermarket modifications in engine bay	PASS

Fluids & Levels

Check engine oil level	PASS
Check coolant level in reservoir	PASS
Check brake fluid level	PASS
Check windshield washer fluid level	PASS
Check power steering fluid level (if applicable)	PASS

Leaks & Seepage

Check engine oil leakage under engine	PASS
Check coolant leakage around hoses and radiator	PASS
Check brake fluid leakage near master cylinder	PASS
Check power steering fluid leakage (if applicable)	PASS
Check fuel seepage or smell in engine bay	PASS

DETAILR · CHS

Underbody & Chassis

Brake Lines & Components

Check brake lines for leaks or seepage	PASS
Check brake pipes for rust or corrosion	PASS
Check flexible brake hoses for cracks or swelling	PASS
Check brake hose connections and fittings	PASS
Check brake line routing and securing clips	PASS
Check ABS sensor wiring near brake components	PASS

DETAILR

Check brake calipers for fluid leakage	PASS
Check brake dust shields condition	PASS

Chassis & Frame

Check chassis frame for bends or deformation	PASS
Check chassis for rust or corrosion	PASS
Check weld points for cracks or damage	PASS
Check underbody for impact or scrape damage	PASS
Check mounting points for suspension and arms	PASS
Check cross members condition	PASS
Check protective underbody coating condition	PASS
Check signs of prior repair or welding	PASS

Exhaust System

Check exhaust pipes for dents or damage	PASS
Check exhaust system for rust or corrosion	PASS
Check exhaust joints for leaks	PASS
Check muffler condition and mounting	PASS
Check exhaust hangers and rubber mounts	PASS
Check heat shields for secure fitment	PASS
Check catalytic converter for physical damage	PASS
Check exhaust noise level for abnormal sound	PASS

Fuel Lines & Tank Area

Check fuel lines for leaks or seepage	PASS

DETAILR

Check fuel pipes for rust or corrosion	PASS
Check flexible fuel hoses for cracks or swelling	PASS
Check fuel line connections and clamps	PASS
Check fuel tank for dents or physical damage	PASS
Check fuel tank for rust or corrosion	PASS
Check fuel tank mounting straps and bolts	PASS
Check fuel filler neck and hose condition	PASS
Check fuel vapor lines for damage	PASS
Check for fuel smell near tank area	PASS

Suspension Components

Check front suspension components for damage	PASS
Check rear suspension components for damage	PASS
Check shock absorbers for oil leakage	PASS
Check struts and mounts for cracks or wear	PASS
Check suspension bushes for cracks or deterioration	PASS
Check stabilizer bar and links condition	PASS
Check coil springs for damage or sagging	PASS
Check suspension mounting bolts tightness	PASS

Underbody Protection & Shields

Check underbody shields for damage or cracks	PASS
Check underbody shields for secure mounting	PASS
Check splash guards for damage or missing parts	PASS

DETAILR

Check engine undertray condition	PASS
Check fasteners and clips for underbody covers	PASS
Check underbody panels for signs of impact	PASS

DETAILR · ROAD

Road Test

Braking Performance

Check brake response and stopping effectiveness	PENDING
Check braking for vibration or judder	PENDING

Engine Performance

Check engine starts promptly without hesitation	PENDING
Check engine acceleration response	PENDING
Check engine idling stability	PENDING

Noise, Vibration & Harshness (NVH)

Check for abnormal engine noise during drive	PENDING
Check for abnormal vibration in cabin	PENDING
Record any abnormal noise or vibration remarks	PENDING

Steering & Handling

Check steering response and straight-line stability	PENDING
Check steering for pulling to one side	PENDING
Check vehicle handling over uneven road	PENDING

Transmission & Clutch

Check smooth gear shifting during acceleration	PENDING

DETAILR

Check clutch engagement and release (manual)	PENDING
Check transmission for jerks or delay (automatic)	PENDING

DETAILR · TYRE

Tyres & Wheels

Spare Tyre & Tools

Check spare tyre condition	PASS
Check jack and wheel spanner availability	PASS

Tyre Specifications

Check tyre size matches manufacturer specification	PASS
Check tyre brand and model consistency CEAT	PASS
Record tyre manufacturing week and year (DOT) 3226	PASS

Tyres Condition

Check front left tyre for cuts, bulges, or damage	PASS
Check front right tyre for cuts, bulges, or damage	PASS
Check rear left tyre for cuts, bulges, or damage	PASS
Check rear right tyre for cuts, bulges, or damage	PASS
Check tyres for uneven tread wear	PASS

Wheel Alignment & Balance (Visual)

Check steering wheel off-centre (visual)	PASS
Check tyres visually for alignment-related wear	PASS

Wheels & Rims

DETAILR

Check alloy/steel wheels for bends or cracks	PASS
Check wheels for scratches or cosmetic damage	PASS
Check wheel nuts/bolts present and secured	PASS

DETAILR · DOC

Documents & Compliance

Compliance Stickers & Labels

Check VIN sticker on body/frame	PENDING
Check emission compliance sticker	PENDING
Check tyre pressure and load label	PENDING
Record remarks for document discrepancies	PENDING

Insurance & Legal

Check insurance policy available	PENDING
Verify insurance validity and vehicle details	PENDING

Manufacturer Documentation

Check owner's manual availability	PENDING
Check service booklet/warranty card availability	PENDING

Registration & Ownership

Check RC copy available	PENDING
Verify RC details match vehicle	PENDING

Vehicle Identification

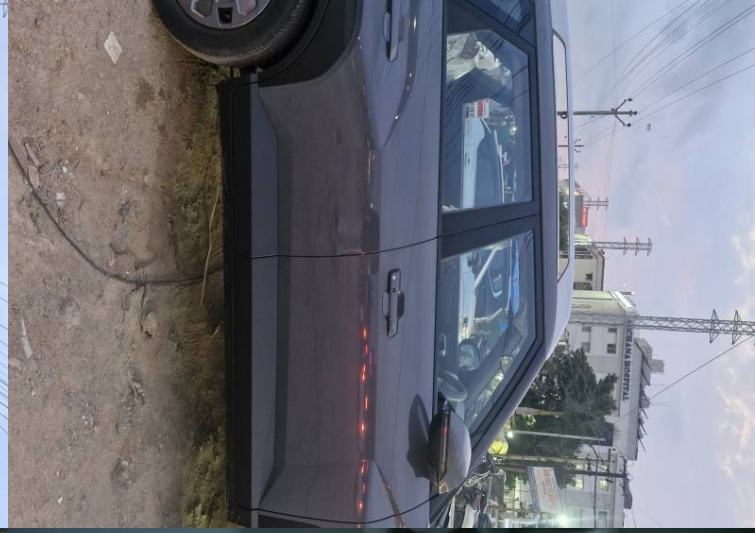

Verify VIN/chassis number matches vehicle embossing	PENDING
Record VIN/chassis number	PENDING

CERTIFICATION OF INSPECTION

Official verification document

This document certifies that a comprehensive vehicle inspection was conducted on the **HYUNDAI VENUE** on **31 August 2026**. All findings documented in this report reflect the vehicle condition at the time of inspection, verified by certified automotive professionals using industry-standard procedures and diagnostic methods.

This certificate is issued for the exclusive use of **V Rajeev** and may be presented to authorized dealers, service centers, or financial institutions as validation of inspection completion.

Report ID	**PDI-000028**
Vehicle	**HYUNDAI VENUE | VIN: MALFG81FLTD130407**
Inspector	**Madhu**
Issued On	**31 August 2026**

This document is a digitally generated copy of the DETAILR vehicle inspection report. It is issued electronically and does not require a handwritten signature to be considered valid. Findings reflect the vehicle condition at the time of inspection and remain on file with DETAILR.
